NOBLE S+ERILE

HOCl GENERATOR

HYPOCHLOROUS ACID GENERATOR

Hypochlorous acid (HOCl) is the perfect weapon to fight germs. Yet this powerful weapon is 100 % safe for humans, chemical free, non-toxic and all-natural.

EFFICIENT
STERILIZATION

ECO
FRIENDLY

NON
TOXIC

MODELS

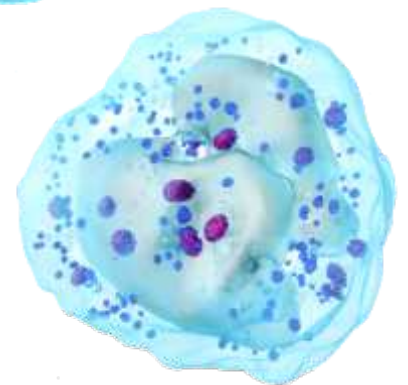

Models	HOCl PPM	Output Litres/Hour	Type
Domestic	500	2	Batch
Table Top	500	20	Batch
Comfort	500	300	Continuous
Impact	500	600	Continuous

**NON-IRRITANT
BIO COMPATIBLE**

**RAPID & POWERFUL
DISINFECTANT**

NOBLE STERILE generator generates Hypochlorous Acid - HOCl under specific electro-chemical conditions using a combination of water, salt (NaCl) and electricity.

NOBLE STERILE HOCl generators activates and produces HOCl solution which eradicates 99% of microbes and pathogens. Hypochlorous acid (HOCl) is the most potent natural disinfectant which is non-toxic to humans and highly effective antimicrobial agent with rapid action.

HOCl

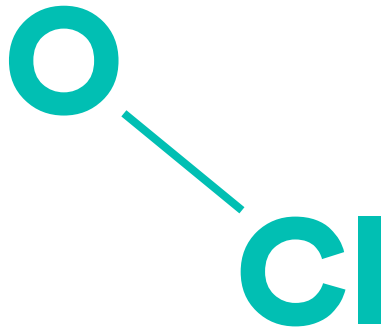

HYPO
CHLOROUS
ACID

powerful, more
efficient at killing
microbial pathogens

H

lethal to dangerous bacteria and viruses and fungal human pathogens that threaten health.

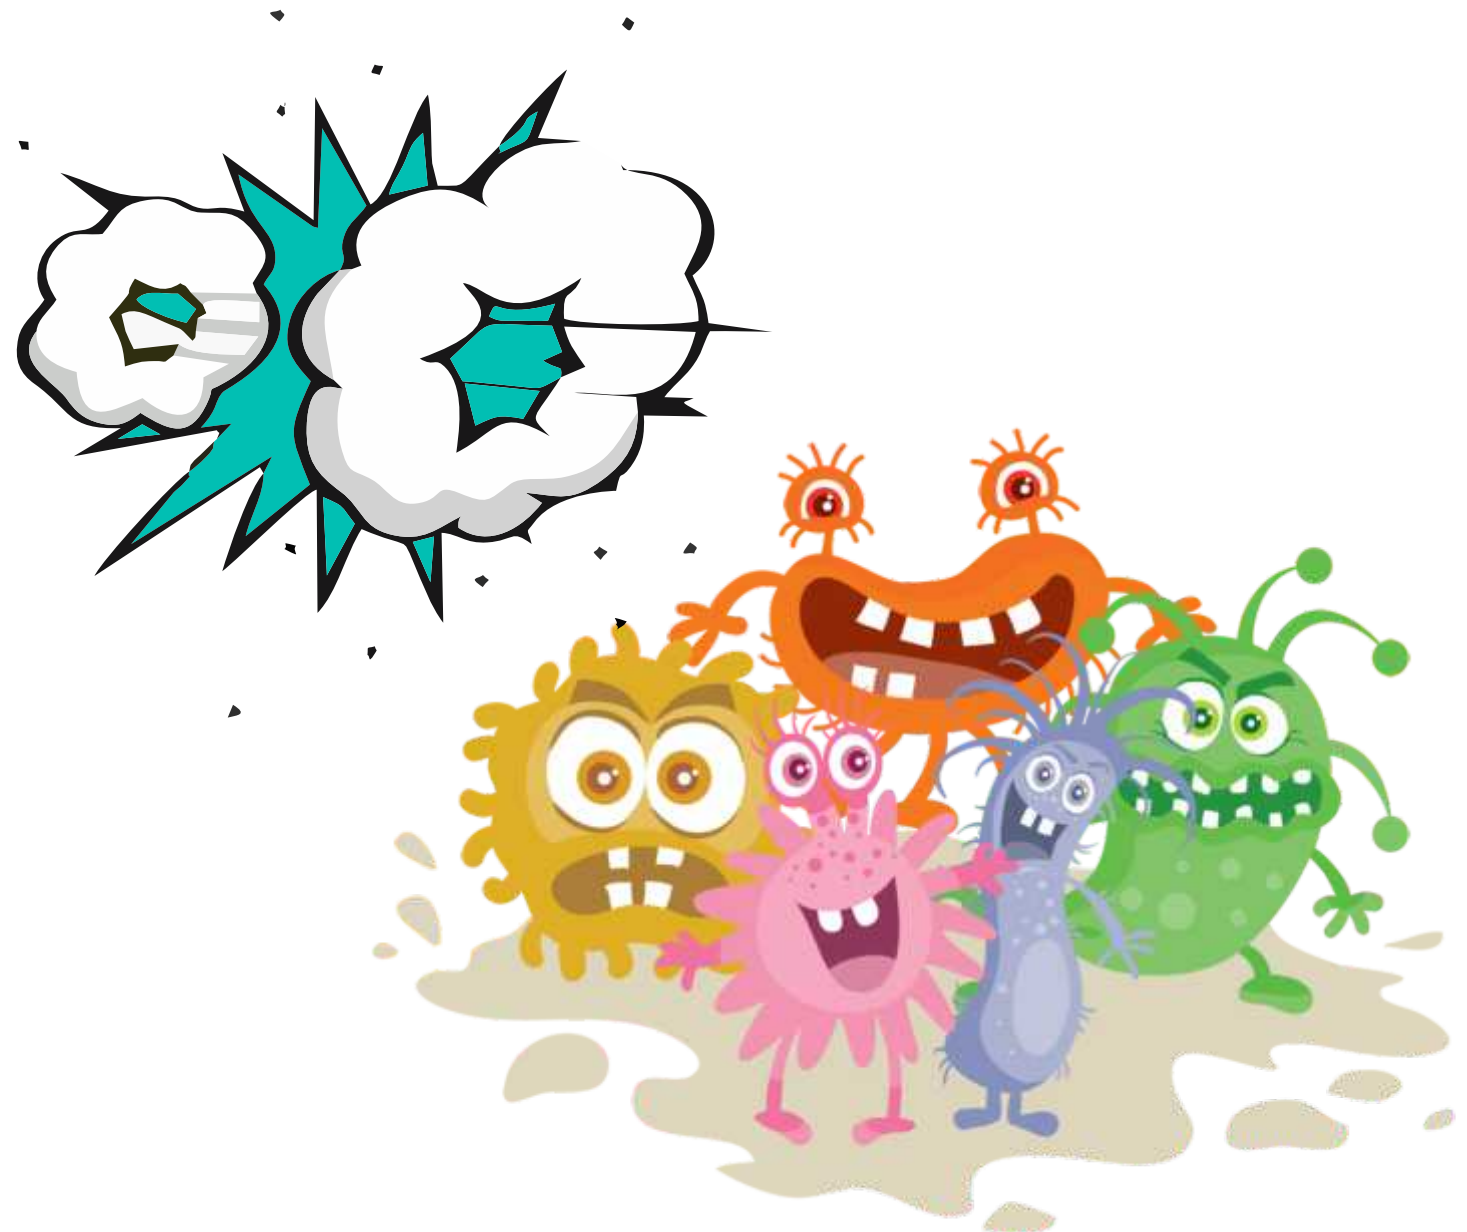

Onsite Generation of Electrolyzed Water

Hypochlorous acid is naturally produced by white blood cells of all mammals. It plays an important role in the immune system killing pathogens through oxidation and chlorination.

Hypochlorous acid can also be produced through electrolysis process, a technique that uses a direct electric current (DC) to drive an otherwise non-spontaneous chemical reaction.

HOCl is highly active against all bacterial, viral, and fungal human pathogens and a small amount of HOCl can kill pathogens in a short time period.

100x
more effective than
chlorine bleach.

99.9 % Pathogens Removal

Hypochlorous acid can kill all kinds of pathogenic bacteria and viruses quickly, such as escherichia coli, staphylococcus aureus, fungus, bacillus subtilis, SARS, NORO virus, black variant spore and other pathogenic bacterium, and can destroy HBsAg.

ONLY SALT, WATER & POWER IS USED.
NO CHEMICAL STORING / MIXING TOXIC CHEMICALS.

Hypochlorous acid is generated on-site at preset concentrations using **NOBLE S+ERILE** HOCl systems.

**EFFICIENT
STERILIZATION**

**ECO
FRIENDLY**

**NON
TOXIC**

APPLICATIONS

HEALTHCARE

SUPERMARKETS

LIVESTOCK

**SEAFOOD/FISH
PROCESSING**

HOTELS

RESTAURANTS

LAUNDRY

CRUISE SHIPS

PERSONAL SANITATION, KITCHEN CLEANING, GRAIN DISINFECTION, STERILIZATION OF FRUITS AND VEGETABLES, HOUSEHOLD, CLOTHING DISINFECTION, CLEANING OF PETS & MORE .
